nice concept, some work and it would be great. Good game to kill time with like all the other series.. Love it! I can actually mix drinks I never heard of before..lol. An absolute masterpiece. If you have 4 hours of time to spare, planetarian is for you. You won't regret it at all, my personal guarantee. What happens when a hardened veteran-like junker meets an easygoing airhead robot? Lots of feels and used tissues, speaking from experience. Really recommend anyone that gets this to try and finish in one sitting. If not, eh, you'll cry anyway :D

It's been an hour after I finished it and still crying over here ;_:. Broken POS. Unplayable.. A hidden gem!

Multiplayer is dead, brothers. The story is sheer violent, satisfying, sweet bolter/melee porn. we got raided by cheaters, then reported it to the devs. but since u can't upload pictures on the report we had no proof and therefore the ticket was just closed. devs are not doing anything against cheaters and allowing this just destroyed my gaming expiriance. also there is no offline raiding and impossible to survive more then 2 weeks if u are a small company. unless you really like farming for a new base every second week. GG devs make the offline raiding like it supposed to be, not paying for an island with 1k gold every 24hours. when you are only 3 friends this is not a possible game to play. or you can join a large company and be a farming slave.. I like the graphics with all those neons. Musics are cool too. But it doesn't challenge me as i expected from infinite runner game. If developers work on difficulty, it has potential to be addictive.

In the game, as far as i understand (there is no story behind except description in store page) you are trying to run away from a spaceship with a jetpack. You dont see the jetpack however controlling it helps you to levitate. It make me feel like i am in control which is important not to have nausea. While you are flying, you have to avoid obstacles. There are different stages at the game with different environments. And the main purpose of the game is beating your own highscore. It would be good to see others with leaderboard.

As early access, it is worth what i paid as long as studio keeps their promises about updating the game with mentioned plan.. Every product of entertainment I love has one thing in common; it elicits an emotion.

One could argue it's everything it needs to do in order to be appreciated, to be welcomed, loved and shared. And if I found a place in real life that resembles the emotions I had with 'the Beginner's guide', this place would have been a county fair that I could visit all alone. A place where you feel a stunning excitement when walking through each level and never know what to expect from the next. And so your perception changes with each time you leave a level behind you and start a new one.

The Beginner's Guide does this by telling a story; the story of an isolated game developer who stopped developing games and left them behind himself. You experience his journey by being guided through the short levels he created; from the very first... to the last, having a likable narrator at your side.

I could go on in detail what those levels are about but this is really not the point. The point is, you have a journey in front of you and the game does not only help you empathize with this strange mind, but also reflect on your own.

When I finished this game, I had to pause for a while and let the previous moments sink through my head. And then I realized the powerful measures of how it makes you think. The moment-to-moment story you are out experiencing, with its emotional ups and downs of breathtaking outcomes and sometimes visual and musical tones. The Beginner's guide gives you the freedom of interpretation and you are quite welcome to do so... it can get confusing at times as well.

At this point I lost my conception of who this game's target audience is. In fact, I don't even believe there ought to be one. I really cannot think of a reason not to pick up The Beginner's Guide.. This game is pretty good so far just waiting on more content to come out for the game but anyways I did a really good high quality video on this game for YouTube if anybody wants to see the game before they buy here's a link to the video <https://www.youtube.com/watch?v=a6a54QeMuU> or you can see it in the videos section on my steam profile! :). ok graphics odd gameplay. I used to play this game all the time when I was young on the XBox 360.
